- She hails from the highly acclaimed Whitestone Jestress cow family and is an own daughter of the long-time highly valued "J000" who was the premiere donor in the Grandview Farms, Wytheville, VA program and at Whitestone Farms, Albemarle, VA.
- The donor dam of this female recorded an impressive progeny weaning ratio of 102 on four natural calves, 111 yearling ratio and combined that with an IMF ratio of 121 and REA ratio of 104. She sals safely. Select Sires roster member GAR Selects for a January, 2010 calf "Selects" ranks in the top 1% for \$M, \$G and \$OG and top 3% on \$B in a curve-bending calving ease package. Her 3.5/00 herd sire prospect by "Final Answer" also sells.

- You will travel a long way to find a Harford herd sire with this much phenotypic excellence and genetic trait-leading potential.
- Big hipped and heavy muscled with loads of balance and strength, this "World Class" son ranks in the top 5% for WWEPD, YWEPD, and SCORL. He ranks in the top 1% of the breed for Milk & Growth, while blending indexes of CHB top 5%, BMH top 10%, and CEZ top 15%. He had an impressive actual weaning weight of 610#.
- He has the credentials to produce and make a mark in a competitive pasture program or utilize his strengths on a black cow base to produce those highly sought after black, baby heifers.
